

Manmohan Maloo

Full Stack Developer | MERN | Nuxt.js | Vue.js | TypeScript

maloomanmohan810@gmail.com | +91 72320 10574 | Ahmedabad, India | LinkedIn | github

PROFESSIONAL SUMMARY

Full Stack Developer with 1+ year of experience building scalable web applications using MERN, Nuxt.js, Vue.js, and TypeScript. Contributed to a production-grade HRIS platform supporting 100+ employees. Skilled in frontend architecture, REST API integration, RBAC, Agile development, and transforming Figma designs into responsive user interfaces. Experienced in end-to-end development, CI/CD workflows, and performance-focused application delivery.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, PHP, Python, HTML5, CSS3, Java
Frontend: Nuxt.js, Vue.js 3, React.js, React Native, Tailwind CSS, ShadCN UI, Nuxt UI, Webflow
Backend & Databases: Node.js, Express.js, REST API Integration, MongoDB, MySQL
Cloud & Analytics: Google Maps API, Google Analytics (GA4), Firebase, Google Cloud Console
Dev Tools & Workflow: Git, GitHub, GitLab, Postman, Figma, VS Code, Render, Docker, Agile/Scrum
Core Concepts: RBAC, Modular Architecture, MVC, State Management (Pinia), OOP, DBMS, DSA

WORK EXPERIENCE

Senior System Developer Jan 2026 – Present
Crew.inc — Ahmedabad, Gujarat

Contributing to frontend development of a scalable HRIS platform using Nuxt.js / Vue.js for 100+ employees.

- Built scalable frontend architecture with Nuxt.js, Vue.js 3, TypeScript, and Tailwind CSS
- Implemented RBAC, authentication guards, and integrated 100+ REST APIs with Pinia-based state management
- Built interactive dashboards, analytics modules, and Google Maps-based tracking features
- Configured GA4 analytics and Managed GitLab workflows, merge requests, and CI/CD coordination within the development team

Front End Developer May 2025 – Dec 2025
Adeshwar Marketing — Ahmedabad, Gujarat

Worked on multiple client projects while leading the early development of the Crew.inc HRIS platform.

- Delivered production-ready features across Nuxt.js, React.js, React Native, PHP, and Webflow projects
- Led Crew.inc frontend development from setup to production deployment
- Improved UI consistency through reusable component architecture

Full Stack Developer Intern Jan 2025 – Apr 2025
Syndell Technology Pvt. Ltd. — Ahmedabad, Gujarat

- Developed MERN stack modules with JWT authentication and REST APIs
- Built responsive React interfaces and collaborated on GitHub repositories through pull requests and code reviews

Data Science Intern Jun 2024 – Jul 2024
Infividhya Pvt. Ltd. — Ahmedabad, Gujarat

- Performed data analysis and visualization using Python, Pandas, NumPy, and Matplotlib
- Presented insights from business datasets to senior team members

PROJECTS

Chatify | React.js, Node.js, Socket.io, MongoDB, Express.js, JWT

- Real-time full-stack chat app with Socket.io messaging, JWT auth, user presence indicators, and private/group rooms.
- Designed to support real-time concurrent messaging with Socket.io

Imagify — AI Image Generator | React.js, Node.js, Express.js, OpenAI DALL-E API

- AI-powered image generation app with prompt-based generation, history tracking, and image export functionality.
- Integrated OpenAI DALL-E API with server-side prompt sanitisation.

Coaching-Guru | Nuxt.js, Node.js, LLM/AI API Integration

- AI-powered adaptive learning platform generating AI-generated personalised learning content using LLM APIs, tailored to individual learner goals and knowledge levels.

EDUCATION

Bachelor of Engineering — Computer Engineering 2021 – 2025
Ahmedabad Institute of Technology CGPA: 7.73 | Graduated: May 2025
Bachelor of Engineering in Computer Science

CERTIFICATIONS & ACHIEVEMENTS

- Machine Learning Training — Coursera / Infividhya (2024): Python, Scikit-learn, supervised & unsupervised models, and end-to-end data pipelines
- Internal SIH Hackathon (College Level) — Built GemLoot, a real-time product price comparison API using web scraping and REST architecture
- Hack This Fall — MLH (Karnavati University) — Developed an AI-powered crack detection system using OpenCV and computer vision; Secured a top 10 position among 60+ participating teams
